FOREWORD

Build for character,

Not for fame.

This is our motto, the goal of the class of 1959. Builders we are, builders of the nation and the world. In our hands lies the future.

In these, our school years, we have been guided toward the final structure that will be ourselves. As a new building is constructed, we have been helped with each brick and stone until we have now a piece of work that is ready for display to the world.

It is our turn now to build. There are still many, many things to be added to our own house. And there are still many other houses in whose building we shall assist. Toward this we turn our faces now, with a word of thanks to those who have helped construct us and a word of prayer that our own job of building will be successful.

DEDICATION

To Mr. Frank W. Zeigler, President of Northeastern Board of School Directors and President of the York County School Board, whose awareness of the importance of education and whose sincere and tireless efforts have been directed toward improvement of education on the local, county, and state levels, we, the class of 1959, dedicate this edition of Les Memoires.

Robert Yordy

BOARD OF SCHOOL DIRECTORS

C. Wolf, C. Orendorf, W. Kann, E. Rentzel, H. Buckwalter, F. Zeigler, M. Busser, C. Coble, R. Strine.

The Northeastern School District came into being in July, 1955, after the new merger of the District of Conewago and the Second Voting District of Newberry Township with the Forge Hill School District. The board consists of seven directors representing each of the Districts. Thanks to the untiring efforts of this capable body of men, we now can attend school in our modern building.

BUILDING AUTHORITY

P. N. Yost, S. O. Zook, G. E. Ebaugh, C. B. Musser, J. F. Ebersbach

The governing body of the Authority is a Board consisting of five members appointed by the Board of School Directors. Each member is a citizen of the school district. The terms of the members of the Board are staggered so that the term of at least one member expires each year. Members of the Board may be reappointed. None of the members of the Board is a member of the Board of School Directors. The purpose of the Authority is to finance the construction of school facilities. The latest project was financing the construction of our new school. We are proud of Northeastern and say "Thanks" to the Authority Board for helping to make it possible.

BUILDING DEDICATION AND ALUMNI DAY

November 22, 1958, was anticipated by all. Parents, students, and alumni looked forward to the dedication because it signified the reality of a dream . . . a dream for a new, spacious building with modern facilities in our community.

The Alumni Day program in the afternoon was highlighted with the raising of the Memorial Flag, presented by Mrs. Ada Asper and daughter, Judy, in memory of our past Supervising Principal, William Asper. After a band concert in the auditorium, the alumni attended class meetings to relive many of their high school memories.

Mr. Frank W. Zeigler presided during the dedication program. Highlighting the evening was the presentation of the key to those representing important bodies contributing to the success of our new building. As the band played the "Star Spangled Banner" closing the program, each person in the audience was thrilled to know that this institution had been established, ending a dream for many and establishing a new challenge of learning in the community.

The International Paper Company Foundation grants our school a sum of money each year to be used solely for experimental purposes. The Steering Committee, composed of faculty members and representatives from the student body and the Parent Teacher's Association, has been set up to decide what projects are to be done. "Improvement of Instruction through Wider Use of Resource Material" is the title of the projects thus far developed. The center of this function is the Resource Material Program Laboratory where teachers may procure materials to aid them in classroom instruction.

The emphasis is on aiding the teacher in the classroom. Various pieces of equipment have been introduced, primarily earphones, so that two or more types of instruction can be in progress simultaneously. Our Easter assembly, a program of colored slides of famous Easter paintings, was a product of this experimental program.

UNDERCLASSMEN

New to high school life, our seventh-graders are encountering many experiences which will help to develop their minds for the future. From many various personalities, each individual selects his friends who will mold his own character and influence his future. Their new found interest is exhibited through active participation in school affairs and activities. What they do today will help build the school of tomorrow.

EIGHTH GRADE

The eighth-graders, having struggled to find their place in our high school society, believe that they have accomplished much. They have discovered also that much more lies ahead of them in the path of life. The members of this class have great ambitions. With guidance from teachers and counsellors they begin developing these abilities in the proper direction according to ability and means. Social and mental maturity develops irregularly among these young teen-agers, causing rough spots in life's road that appear insurmountable.

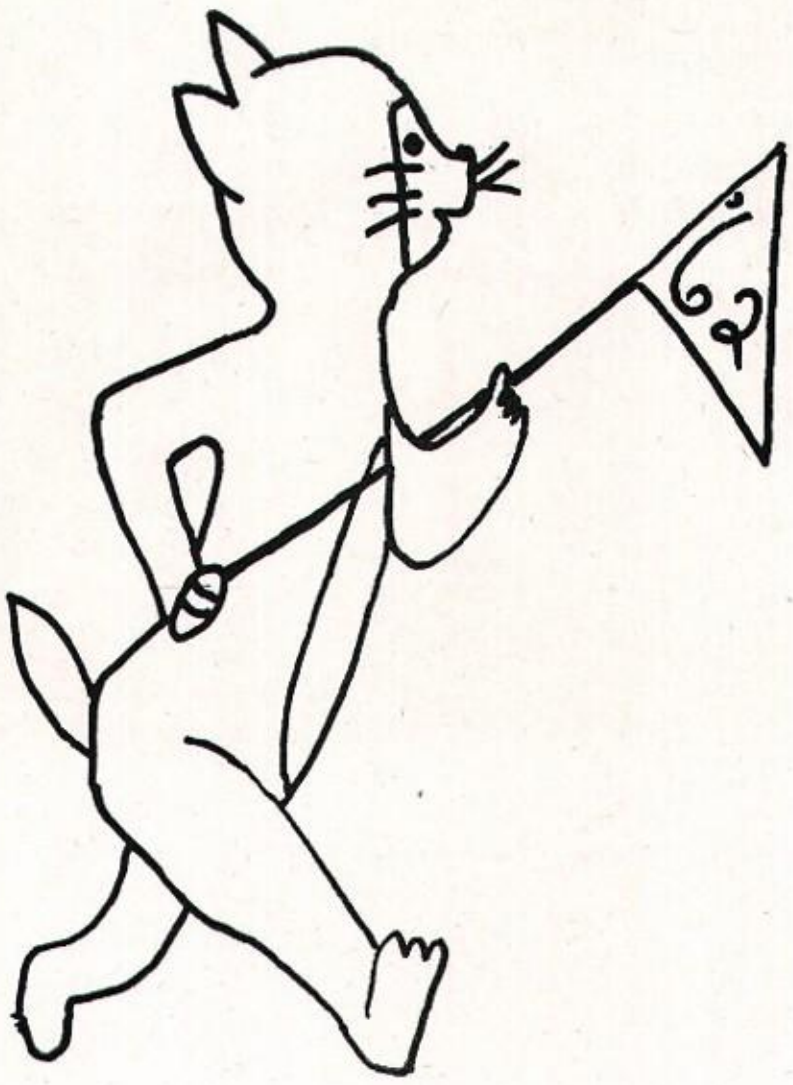
FRESHMEN



In the years to come, when high school is behind them, and they look back at the high-lights, to 'the class of '62, these days will stand out clearly. This year they have one of the most unique positions they will ever hold. They are "seniors" in junior high. It is their class that wins the honors on the basketball court, that shares the glory of all junior high accomplishments. But yet they are "freshmen" in high school. They are as much a part of one as the other. There they stand, balanced between two worlds, and loving every minute of it.

We, the seniors of 1959, look back on our own ninth grade days with fond memories and a wish that their future will hold as much happiness as possible.

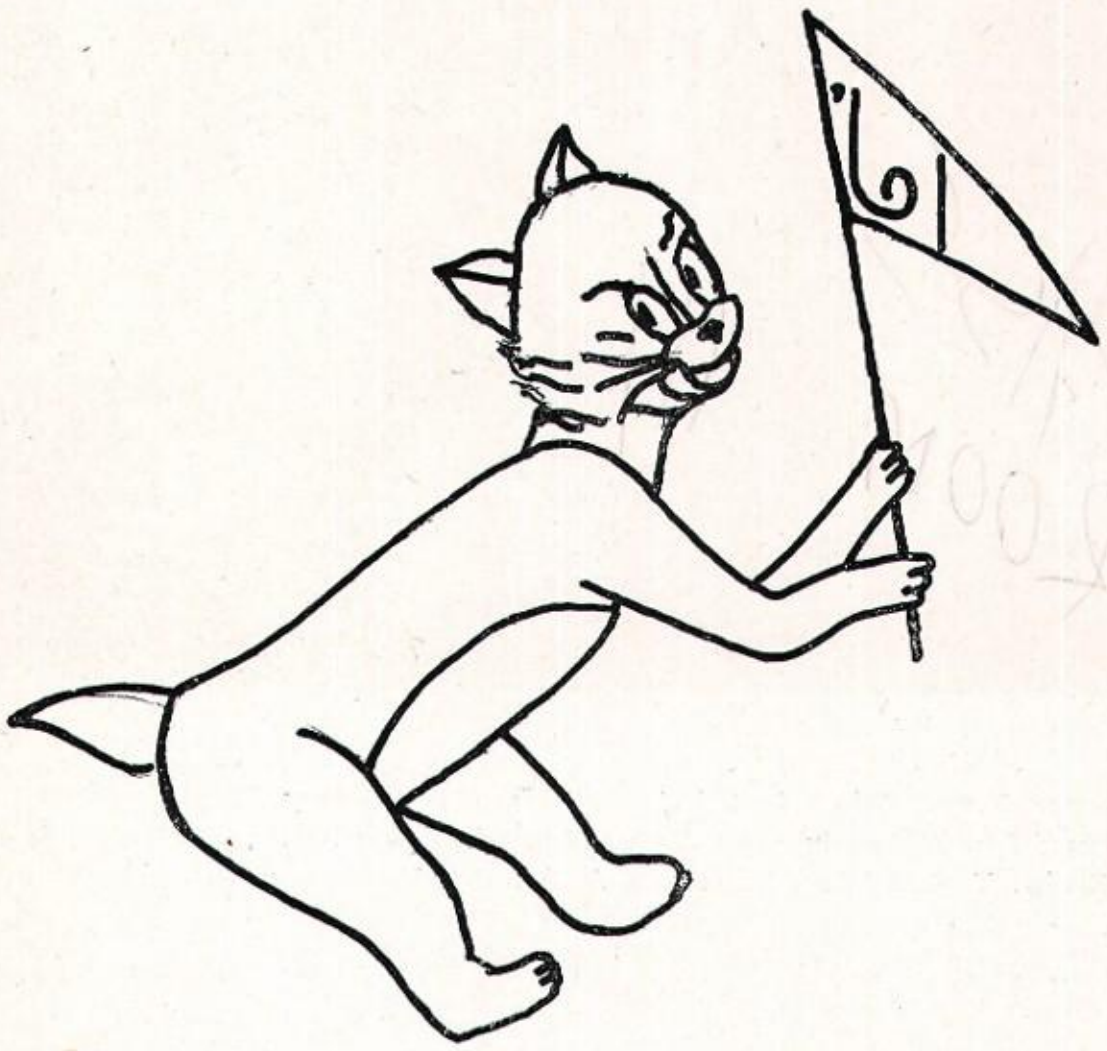
SOPHOMORES



Of all the years to be spent in school, this is one of the most enjoyable. It is this year that you enter into the full swing of high school life. Your sophomore year is almost completely devoid of the cares of the future. Graduation is far away, and yet it is very close. This is the year of laughter. Parties, dances, and basketball games are all-important.

To this, the class of 1961, we wish a continuation of the laughter and joy that is theirs this year. May their future years at Northeastern and afterwards in the outside world contain all the happiness and fulfill all the promises of their sophomore year.

C. A: in York: Although mainly a service club, these girls spend some time working to solve their own problems.

Hi-Y

The members of the Hi-Y Club are Senior High boys interested in being of service to the school and the community. Through this club the boys develop leadership abilities.

At Christmas the club filled baskets with food for needy families in the area.

In January they sponsored a bus trip to the Farm Show.

Their club sponsors each year the first big dance of the school, the Varsity Homecoming Dance. They also sponsor a double-header basketball game every year.

Among their activities this year, was a visit to the Hershey Sports Arena where they saw the world famous Harlem Globetrotters play basketball. This spring they plan to attend a baseball double-header in Baltimore between Boston and Baltimore.

Hobby Craft

The young men in the Hobby Craft Club are interested in learning the principles of flight. Their request for this knowledge is guided by their advisor, Mr. Roberts. Music Appreciation

Our best description of the Music Appreciation Club is in the form of a direct quote from Mr. Rank, its advisor: "The ultimate objective of the Music Appreciation Club is to instill an appreciation of the international language of music. The above is fulfilled by playing selections which represent the past and present in its most glamorous eras of musical greatness."

Math Club

The Math Club, under the direction of Mrs. Studebaker, is helping its members learn that mathematics can be very enjoyable. The charts that many many math students regard with horror are being used to draw pictures by the club. Mathematics is used to tell jokes also.

Junior Red Cross

The purpose of the Junior Red Cross Club is also to serve others. Although they don't participate too much in international projects, they work hard on local and national projects, working under the leadership of a teacher sponsor. They give of their time and talents to those who need it most.

Each and every year, in the season known as Autumn, a sport called Soccer takes precedence in the hearts of loyal Northeastern boosters. It's an odd sport to some, since a score isn't registered until a leather sphere is maneuvered through a large rectangular goal.

The past season could be counted as a good one inasmuch as our record ended at 5 wins and 3 losses. Although the booters didn't bring home a trophy, the fans will never forget the many thrilling games with the old north wind biting at their cheeks.

SOCCER QUEEN

With the beginning of school comes the first sport of the season—soccer, and with soccer comes the choosing of the girl who is to inspire our boys on the field.

This year's Soccer Queen was chosen from a court of nineteen beautiful girls, each one a representative of her respective homeroom.

The new Queen was Rosemary Cassell, a senior from Homeroom 214, a choice applauded by all, and with good reason, as you can see from this picture.

The enthusiastic cheers heard at this years's games were led by our capable and peppy squad of cheerleaders. The memory of being a part of the crowd at the soccer and basketball games, cheering our team to victory, will live long in the hearts of all Northeastern students.

We are proud of our superb cheerleaders and sincereiy thank them for creating good sportsmanship in the cheering section and for a job well done.

Thank you for a job well done.

A somewhat unpredictable team was on the prowl at Northeastern this year. The Bobcats being of well-rounded height set out on a most memorable season by winning their first ten contests without defeat. The Cats clung to the top of the standings throughout the year. Since the league was divided into two divisions (Northern and Southern) the only obstacle was our traditional foes from Central. After a tense battle with fate, our rivals threw in a desperation shot with two seconds remaining. Thus the Bobcats succumbed by a scoring deficit of two points. Still it was a rewarding season, since the team posted a seventeen won and three lost record. Another such consolation was the winning of the Sportsmanship Trophy.

Our Junior Varsity Basketball Team had a rough road to hoe this year, since the majority of players were in their first year of basketball. Although the team didn't rack up in the win column, they still acquired a great deal of valuable experience, thus throwing some possible light on next year's varsity quintet.

It was a good year for the Junior Bobcats this season. The Junior High School League was divided into two divisions just like its big brother, the Senior High League. The squad proved to be a good one by racking up 12 wins and 7 losses.

The team might not have won the league championship but again valuable experience and fellowship was gained. Furthermore, one can never tell what next year will hold since the team loses only three of its starting players.

The team this year backed up its many predecessors by posting a very good record.

Northeastern's nine started off the season by sweeping through the first five contests without a defeat. It then seemed as though our fate changed, since the Bulldogs of West York snagged the sixth game by three to one. After this, Northeastern hopped back onto the track. At this stage, the champion is undetermined, but the Bobcats will have to win all of their remaining games.

Until the disastrous game, our teams, over a three-year period, had racked up 18 straight victories.

Volleyball

At the beginning of January, 1959, there was much talk among the girls about the coming volleyball season. They were all anxious to begin practice, knowing that the season started in February.

From their first practice on, the girls played hard and practiced hard. They had their aim set for the top and the determination it takes to get there. But things do not always work out the way you want them to. Perhaps they tried a little too hard at times. But win or lose, they represented Northeastern very well both at home and on foreign courts, in sportsmanship as well as competition.

The highest honor that any Northeastern student can obtain is to be elected to the National Honor Society. This honor is bestowed on students possessing high standards of character, scholarship, leadership, and service. The induction of members into the society is a highlight, for the formal ceremony is very inspiring. As each member receives his light from the central candle representing the four qualities of the Society he is charged to pass this light to each student so that our standards of character, scholarship, leadership, and service will rise to higher levels in our school.

PIE CONTESTS

Apple

Nancy and Runner-up Barb

Our Queen

Northeastern High School's home economics department has come through with some honors this year.

Nancy Busser, a member of the Junior Class, has put our school on the map as far as pie baking is concerned. Her talent with apple pies won her the apple pie baking championship in Penna.

Apple pies were not the only flavor to gain the spotlight this year. Rosemary Cassell and her Cherry pies took honors in our school among the bakers. At least two girls from Northeastern won't have to rely on bakeries to feed their future husbands.

All the senior girls competed this year in the "Betty Crocker Search for the All-American Homemaker of Tomorrow Contest". The winner (hike the list of future lucky husbands) was Martha Zook from Homeroom 204. Congratulations are due all the way around.

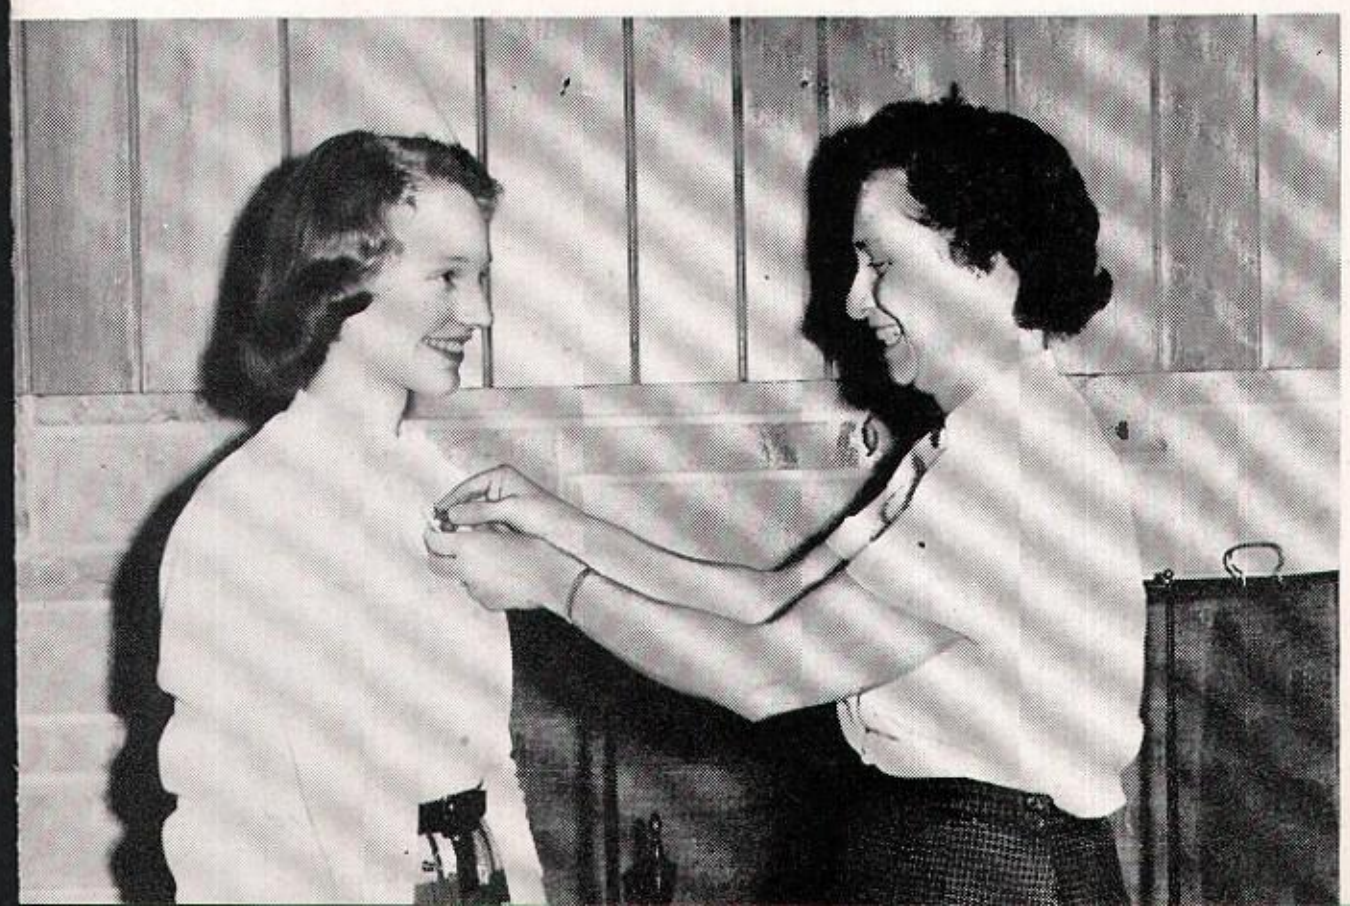
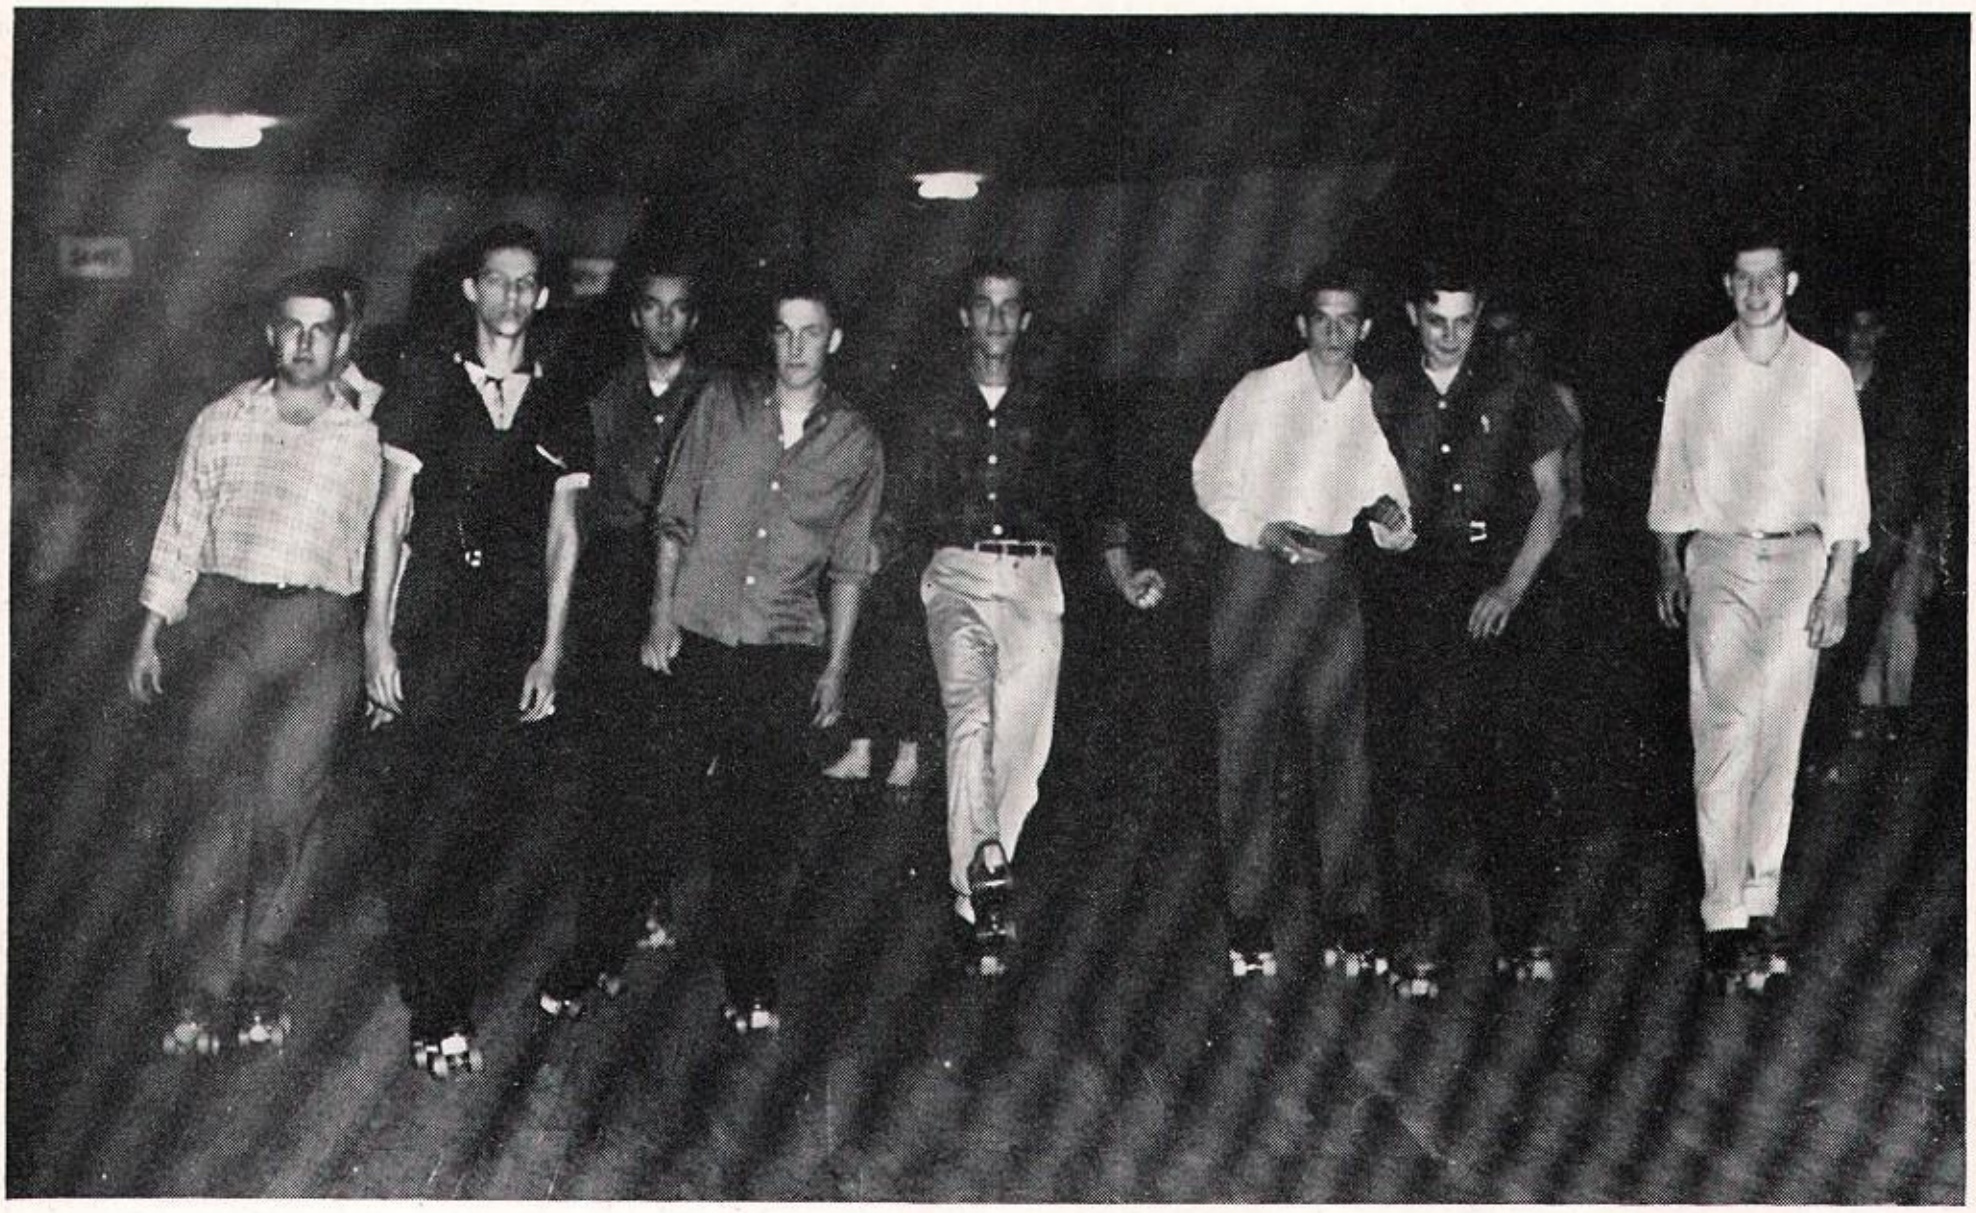
Congratulations, Rosemary

Good work, Martha.



BETTY CROCKER AWARD

SKATING PARTIES AND



SOUP SALES

As you can see, this year's skating parties at Playland were a lot of fun for everyone in Northeastern. The skating parties were looked forward to by many and will live long in the memories of our student body.

The Senior Class received all profits from the skating parties to help finance the class trip to New York City. Another money-making project was the soup sale. The Seniors worked hard preparing the chicken corn soup. Their efforts were worthwhile as the soup sale was a big success.

GUIDANCE PROGRAM

"May I go see Miss Cassel?" This is the cry of many students confused about a problem or decision that must be made. Miss Cassel has answered many questions and guided many students into the future paths of life. Mr. Manseau joined Miss Cassel this year and together they now counsel students, guiding them toward a goal which will bring success and happiness to them. These two wonderful and understanding people are the keystone of Northeastern.

CLASS MOTTO

Build For Character,
Not For Fame.

CLASS POEM

But babes we were three years ago,
In early high school days.
With great misgivings, many a woe,
We faced toward "big kid" ways.

The challenge grew as on we went.
We strove, we climbed, we learned.
With eyes on noble goals intent,
We base temptations spurned.

So build we did, this class of ours,
The lives we now shall live.
Have we developed well our powers?
If not, O World, forgive!

For, oh, how true it proves to be,
Our fate is but our own.
The structures which we built, you see,
Have by our efforts grown.

So, classmates all, strive on anew.
We wish for you the best.
May all your fondest dreams come true
When you have passed the test.

—Rose Mary Cassell

CLASS SONG

Build for Character

THE KEYS TO THE WORLD WERE THE DOORS TO OUR SCHOOL, EACH BOOK A
PATH WAY WITH-IN. TRAVELLING THROUGH TIME WE LEARNED LIFE'S WAYS,
LEARNING TO LOSE AND WIN. WHICH ROAD SHOULD WE FOLLOW WHICH
PATH SHOULD WE TAKE, WHERE IN LIFE SHALL WE ROAM
E-VENTS OF THE PAST HAVE HELPED US TO-DAY AS WE STRUGGLE TO
FIND OUR OWN. MAY STRENGTH BE OUR GUIDE AS WE LOOK A-
HEAD MAY HON-OR BE OUR AIM. LET US NE VER FOR
RIT.
GET THAT WHICH WE'VE LEARNED: BUILD FOR CHARACTER NOT FOR FAME.

IN MEMORIAM

ROBERT FRANTZ

It is the last month before the start of our senior year in high school. This, for most of us, is only the beginning of life. We are looking forward to many things, to life at a new high school, to the day when we walk down the aisle of the auditorium to the strains of "Pomp and Circumstance" and receive our diplomas; to our jobs, or military service, or college afterwards; to marriage, and, above all else, to life. We are full of plans and aspirations during this month. Life is looking most promising.

In the midst of all this promise, on a dark and winding road one night all the dreams of one of us comes to a violent end. With a crash of splintering metal the life of Robert Frantz, member of the senior class of 1959, is snuffed out.

To all his unrealized plans and dreams, to the future that was destroyed so very quickly, to all those who share a bit of the sadness that his death has caused, we, the senior class of 1959, dedicate this, the senior section of our class yearbook.

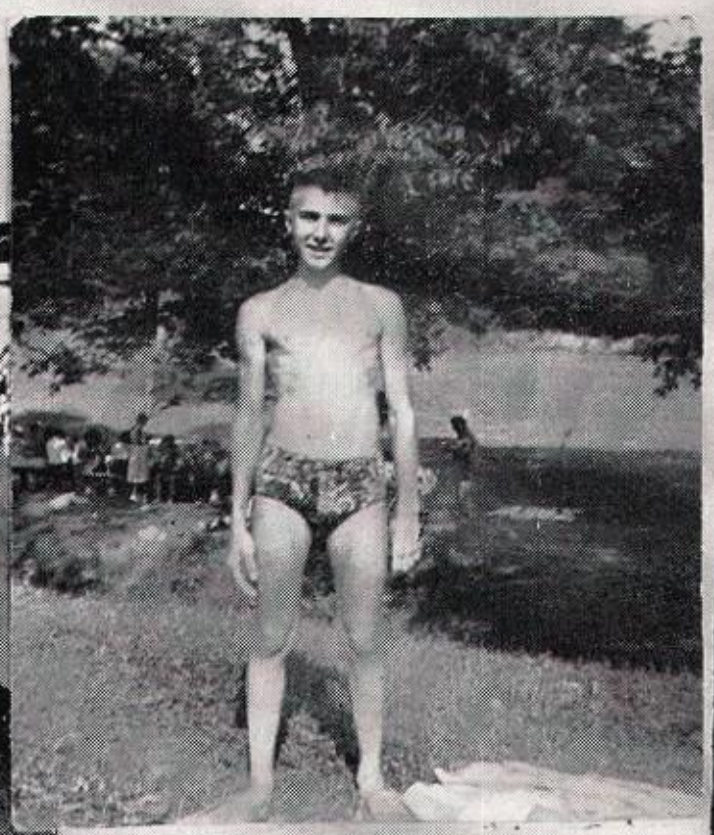
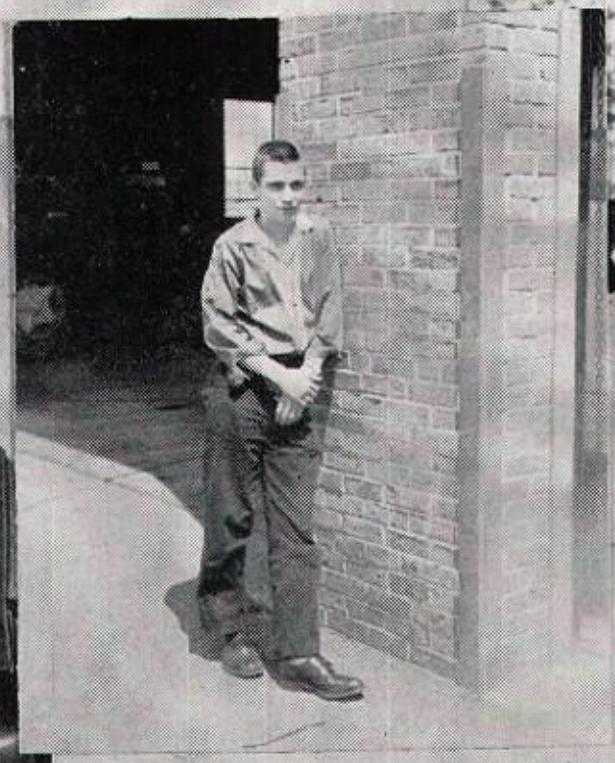
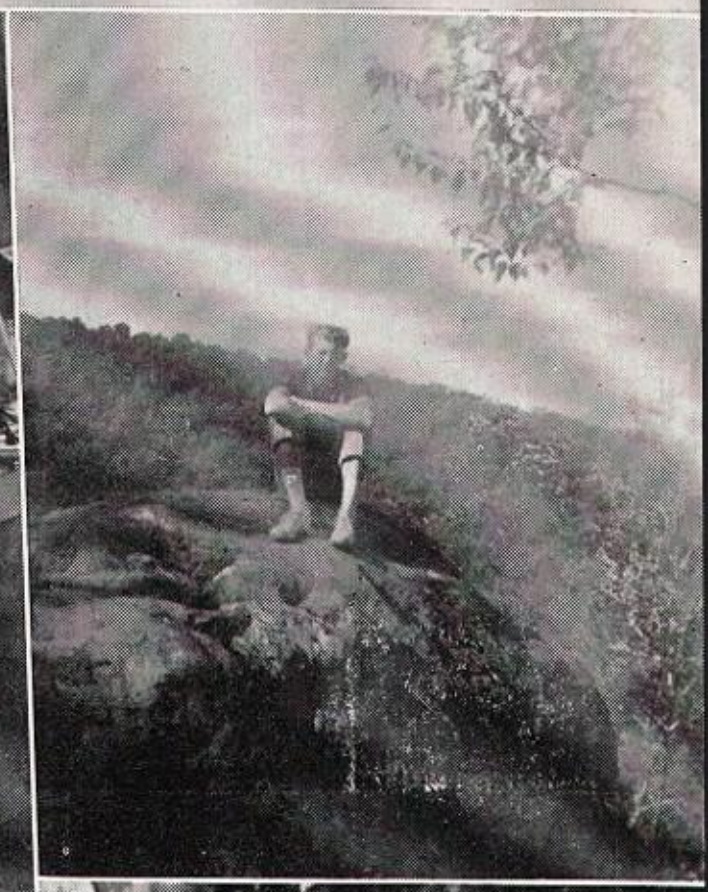
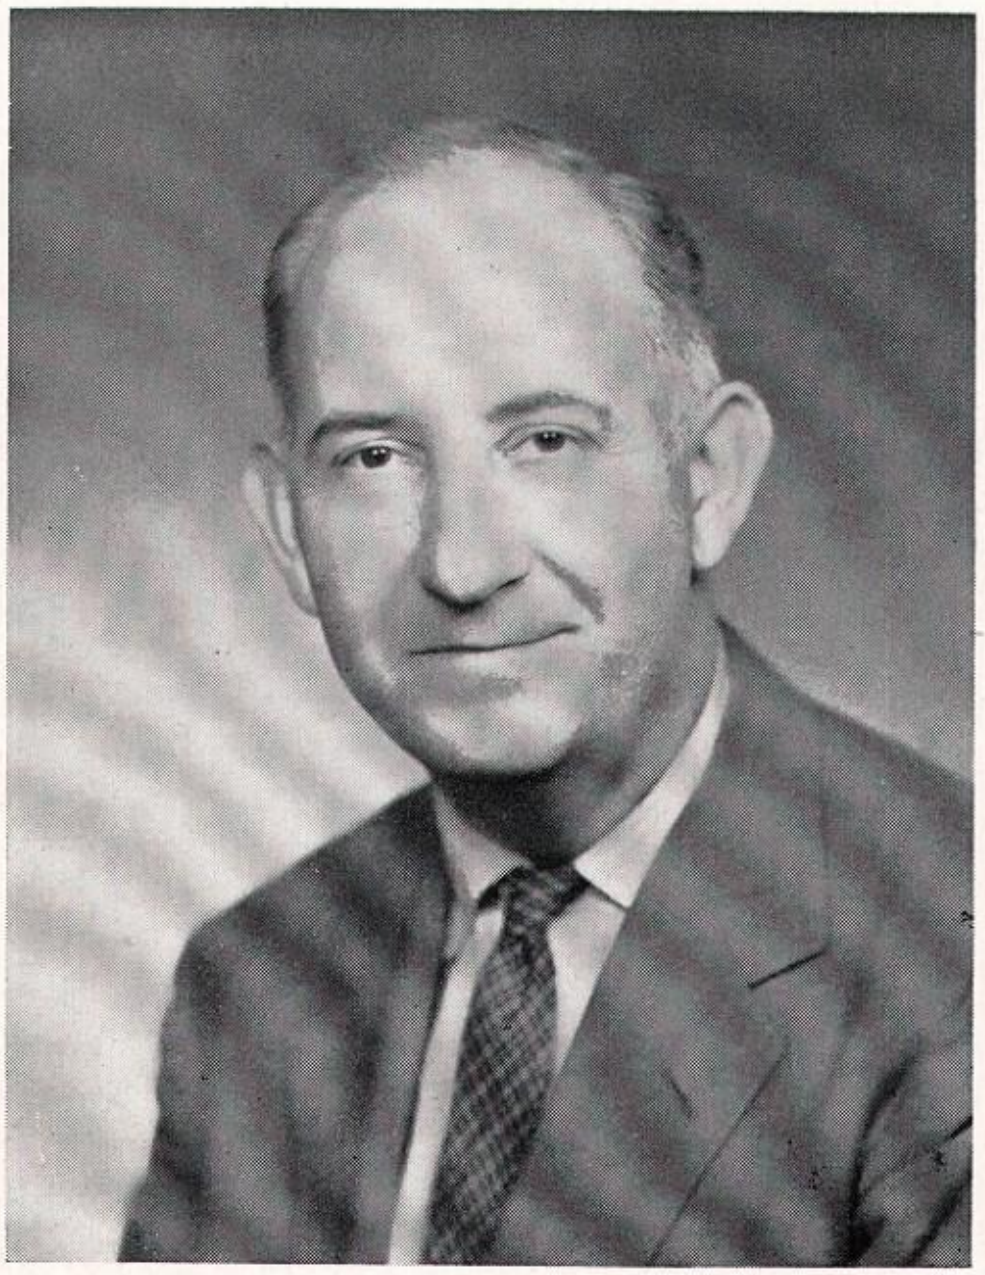
SENIOR SNAPS









MR. CAMPBELL

To Mr. Campbell, Mrs. Dunlap, Mr. Pike, and Mrs. Stankus, we, the graduating class of 1959, extend a warm welcome as they fulfill their respective positions at Northeastern.

We are glad that Mr. Campbell, who has previously held a principalship in Delaware, has joined the administration at Northeastern. He has high ideals for our school, and with full cooperation of faculty and students, hopes to raise our standards to the highest in the county.

Mrs. Dunlap joined our faculty in January replacing Mrs. Shepherd in the home economics department. Mr. Pike and Mrs. Stankus, teachers in the English department, also joined our staff in January.

Best wishes to Mr. Campbell and the new members of his staff as they exercise their talents in building Northeastern to be the institution our community desires.

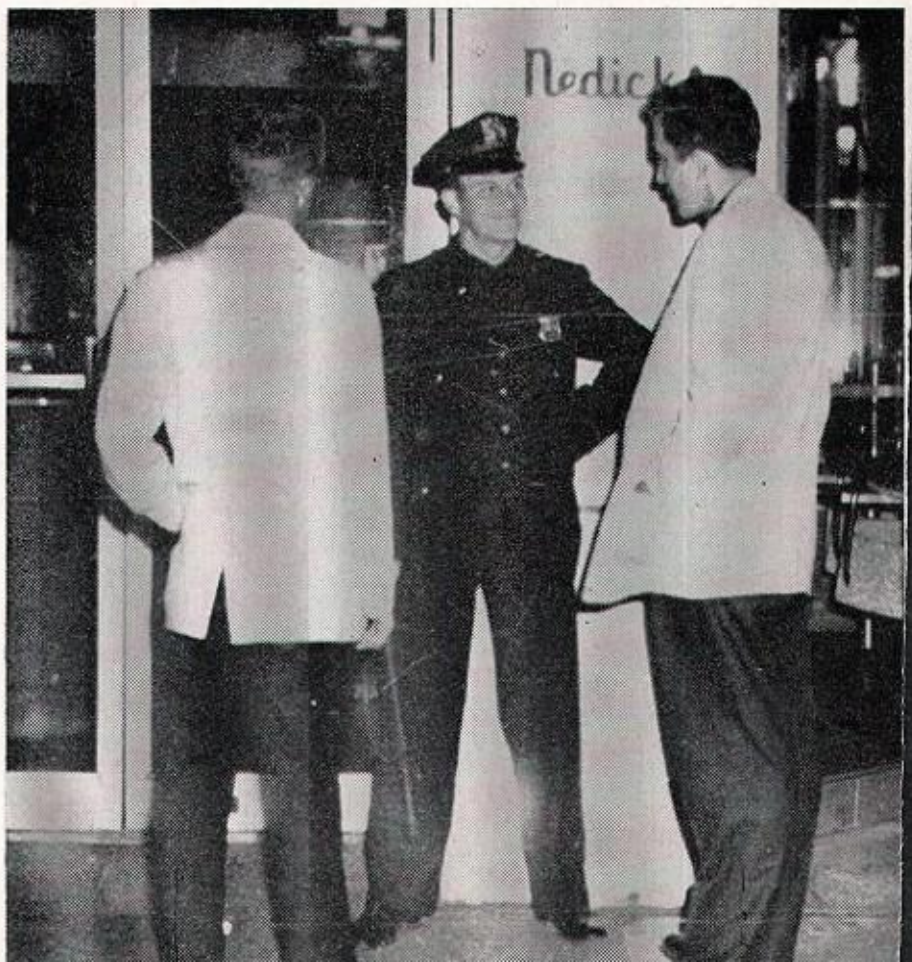
SENIOR CLASS OF 1959

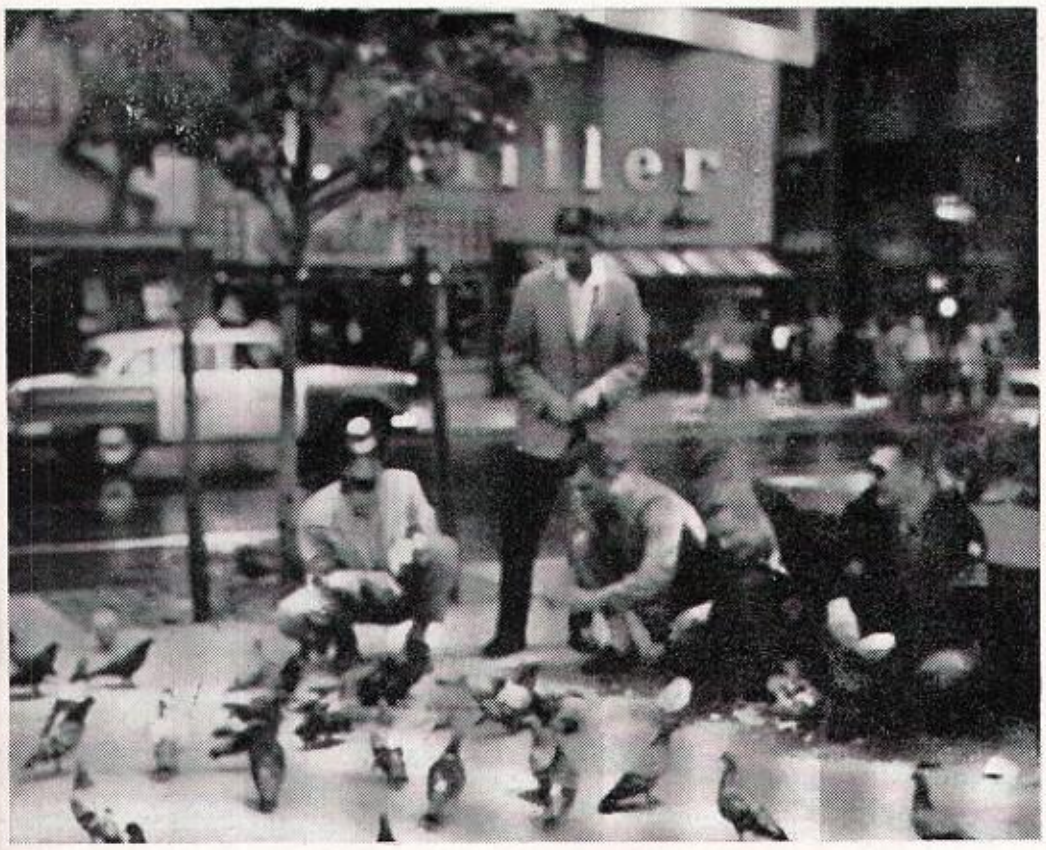
NEW

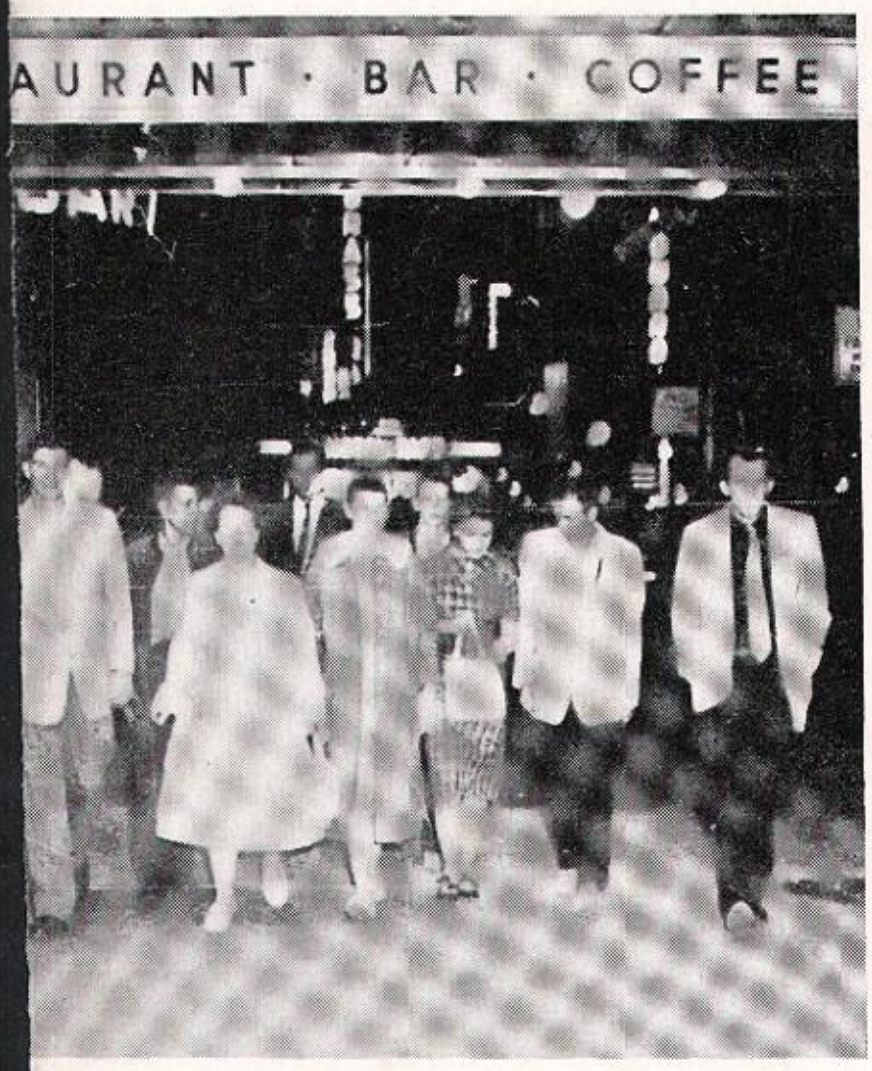
At 5:30 in the morning, on May 25 of this year, 1959, a very sleepy but very happy senior class of Northeastern High gathered around their suitcases in the school parking lot, to get ready for the mad rush for good seats when the bus doors opened.

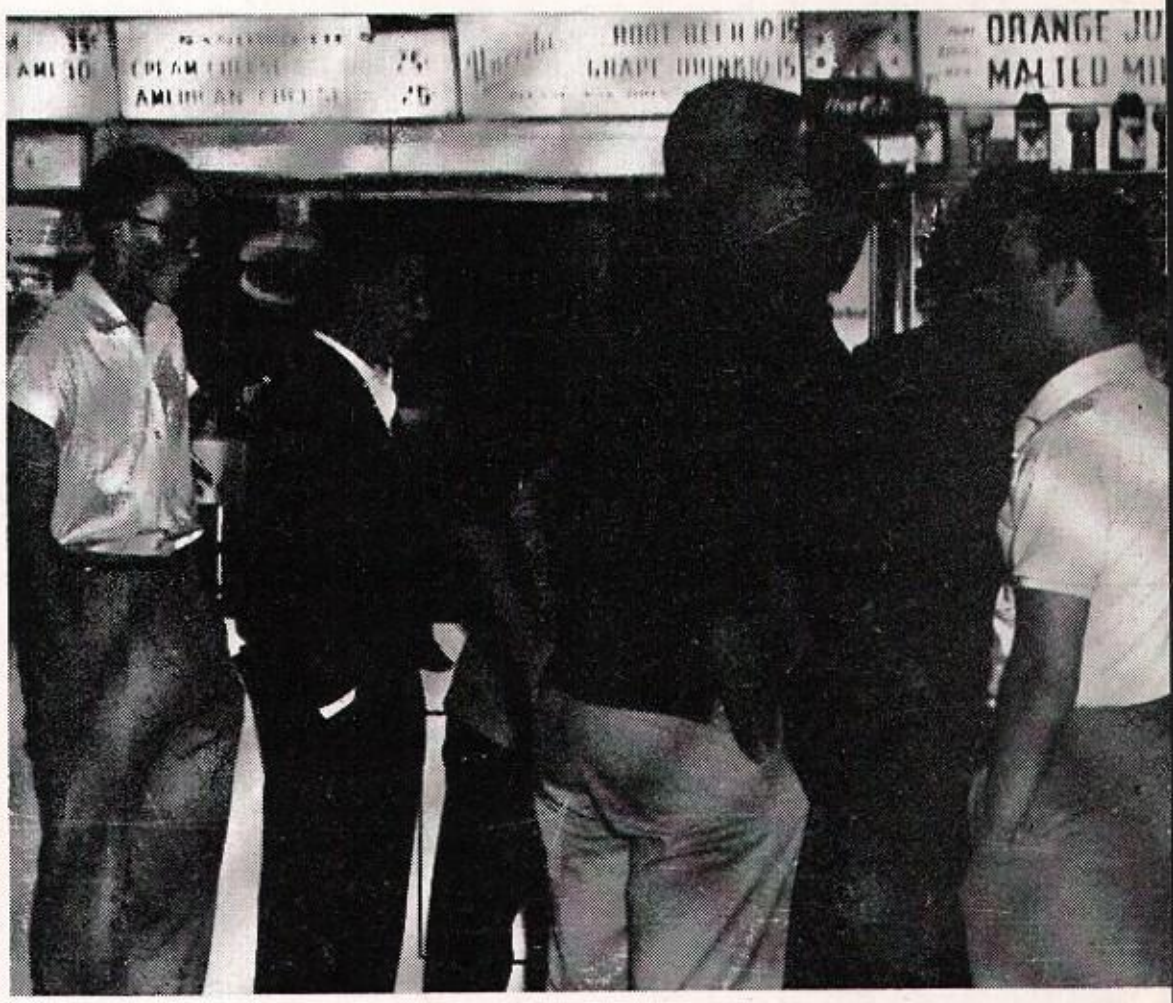
At 10:30 in the evening, on May 27, the same happy group (even sleepier now) tumbled out of the buses and went their weary ways home. In those three days that we were gone, we saw New York, as only 115 kids can. The Empire State Building, The Statue of Liberty, Times Square, Chinatown, the United Nations Building, Central Park, Radio City Music Hall—all of these things we can never forget, and we had a marvelous time seeing them.



YORK







BACCALAUREATE

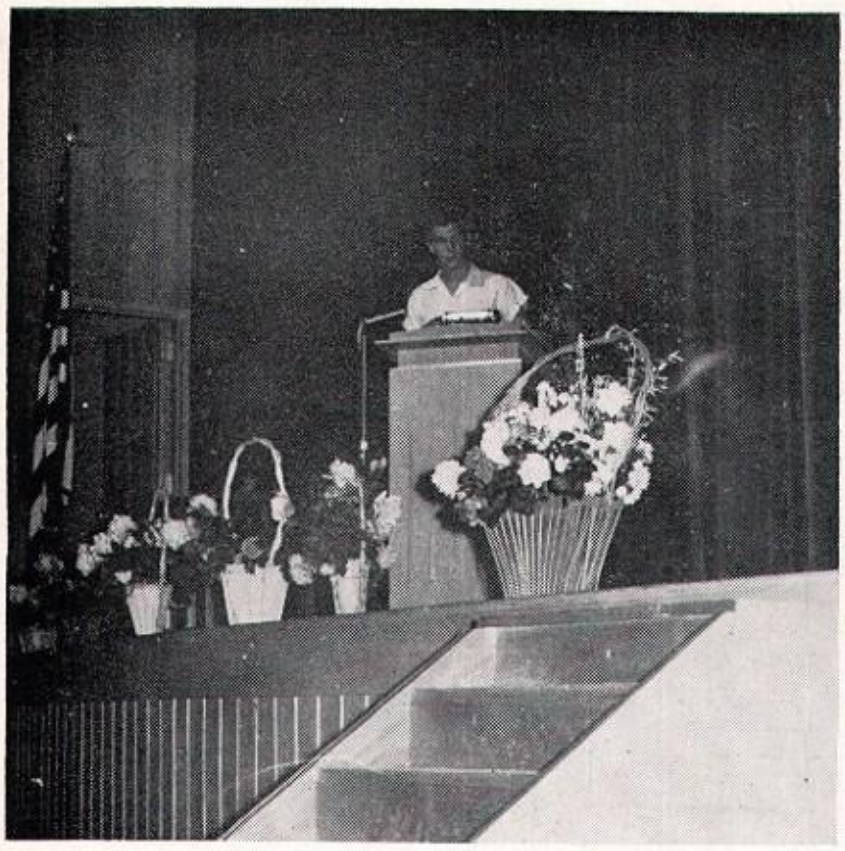
Of all the days or nights that the class of '59 has spent together, there are two nights that stand out as being the saddest and the happiest.

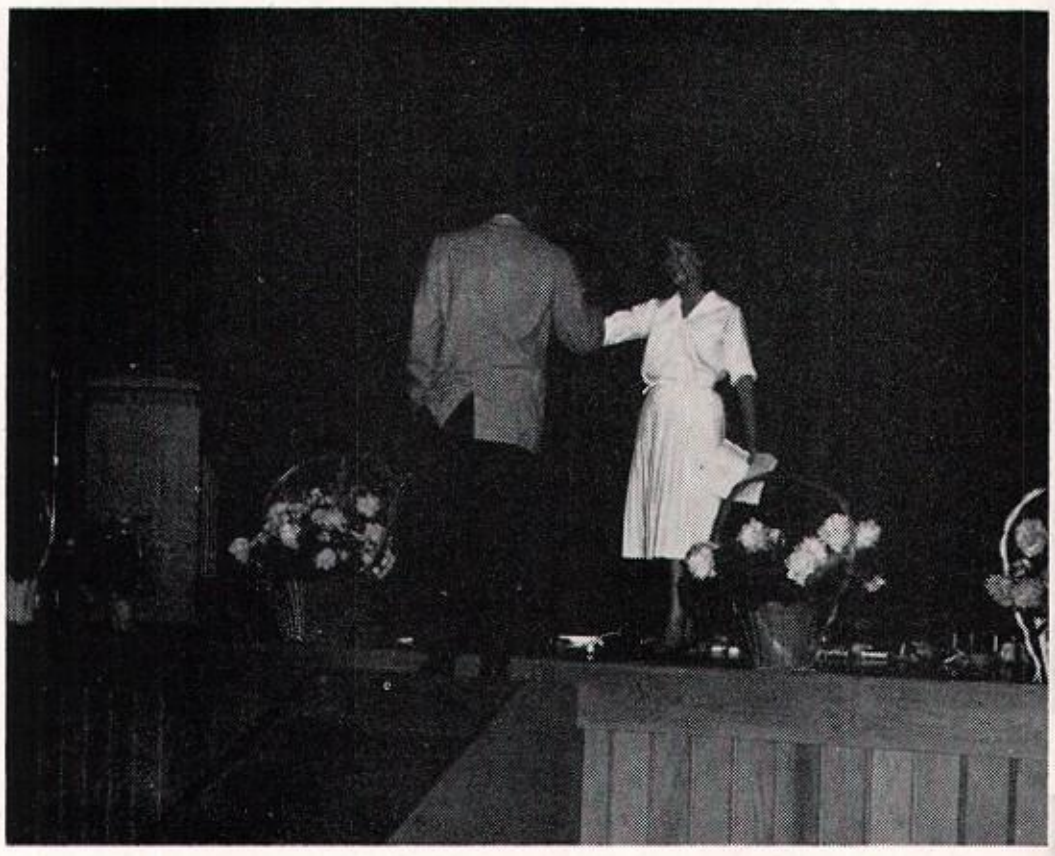
May 31—Baccalaureate, and June 2—Commencement, are nights we will truly remember always. There were many tears shed that night, and many new memories made that will last through the years. We have a great class and a great bunch of young men and women. Who wouldn't be a little bit sad at leaving them? The class of '59 is now scattered, but each one of us carries a rather warm spot in our heart for the friends to whom we said goodby at Commencement.

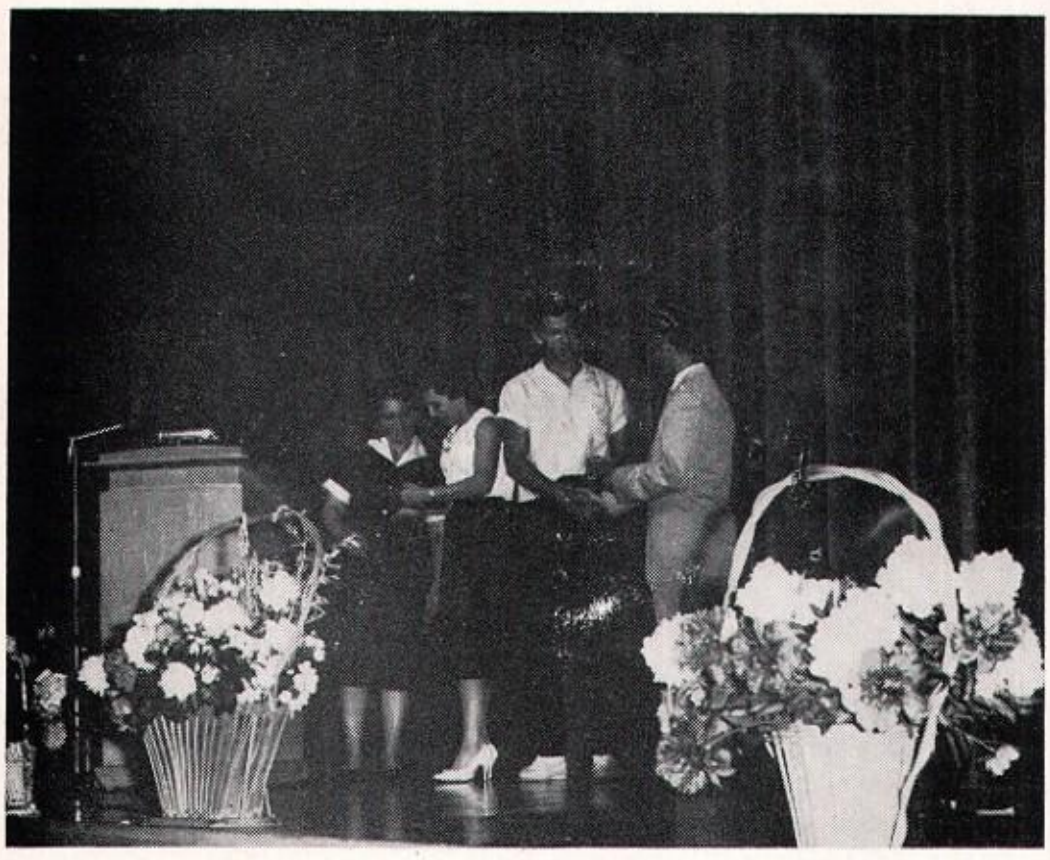
COMMENCEMENT

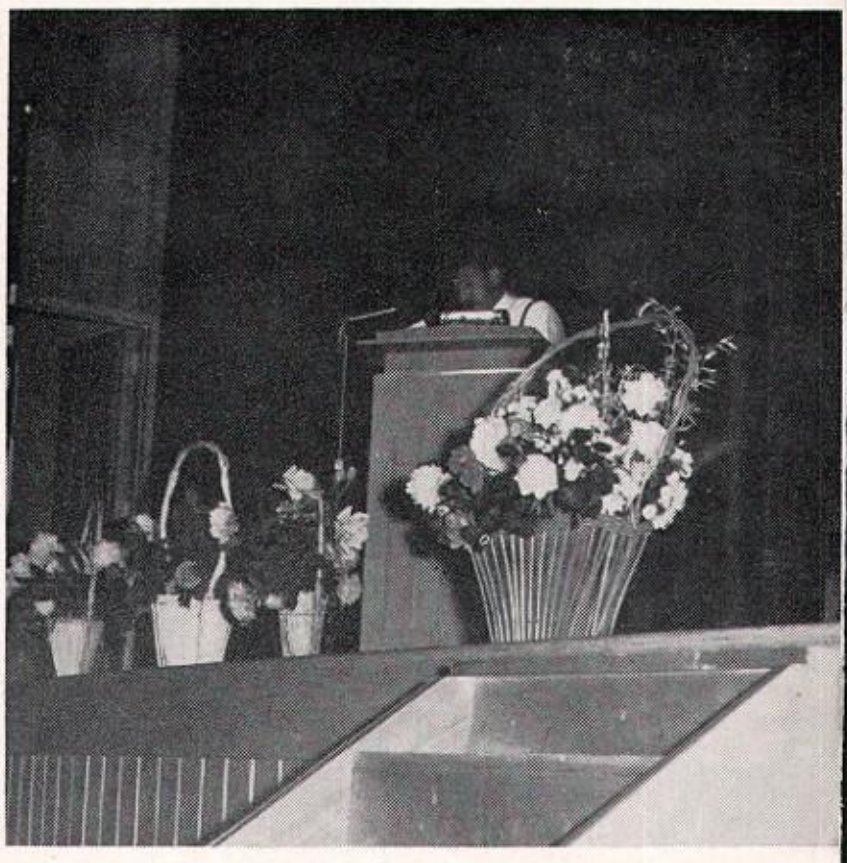
CLASS NIGHT

The first Class Night of Northeastern was held on June 1, 1959. The program, M.C.'ed by Ray Sterner, was highlighted by the reading of the Class Will, the presentation of a gift to each senior, a "Charlie Weaver" skit by comic Larry Wallace, musical numbers, and a resume of this year's events. The V.F.W. awards were presented to Rosalie Miller and Ray Sterner. Also several business awards were presented.

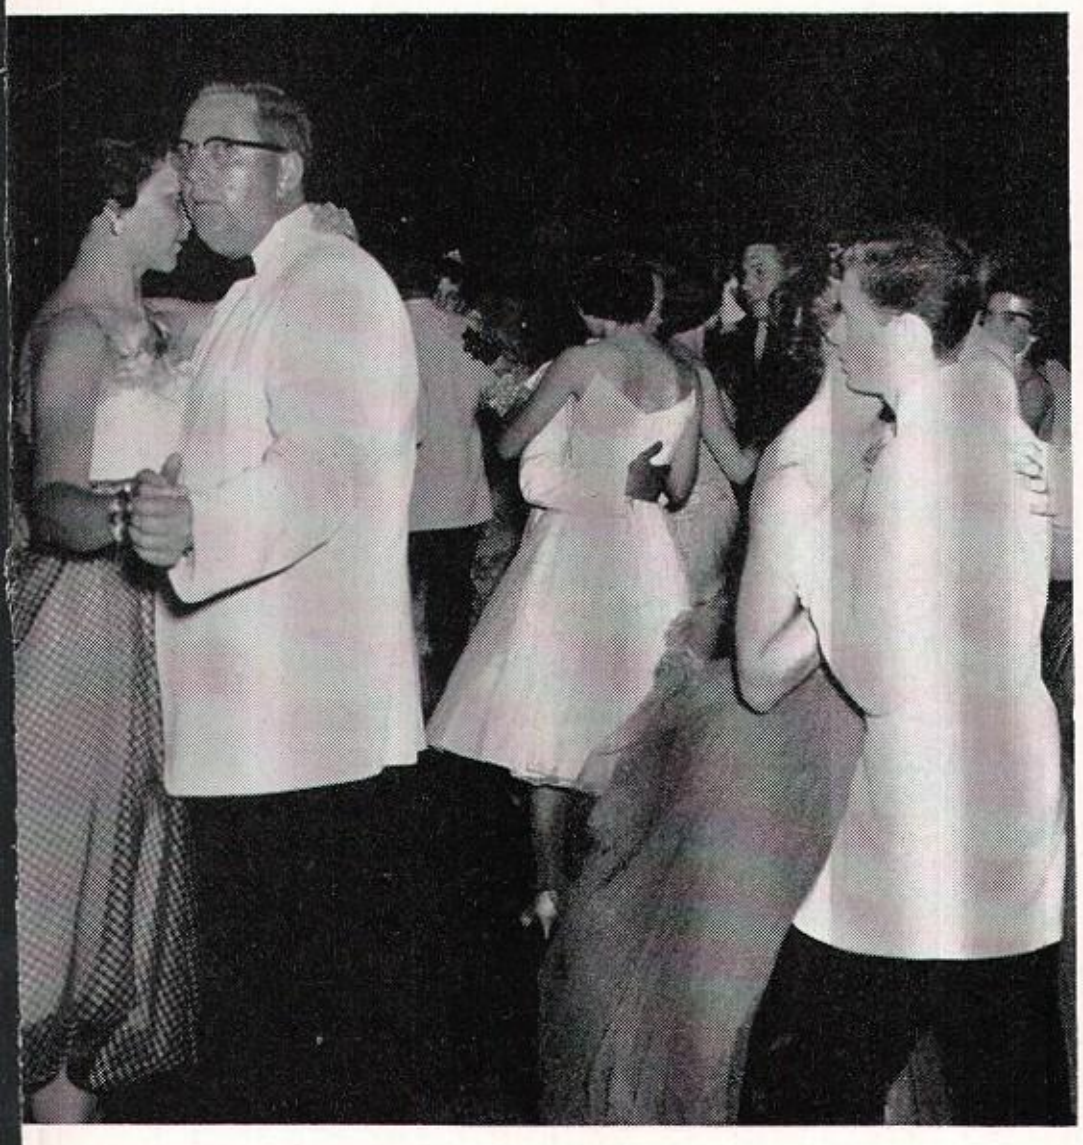


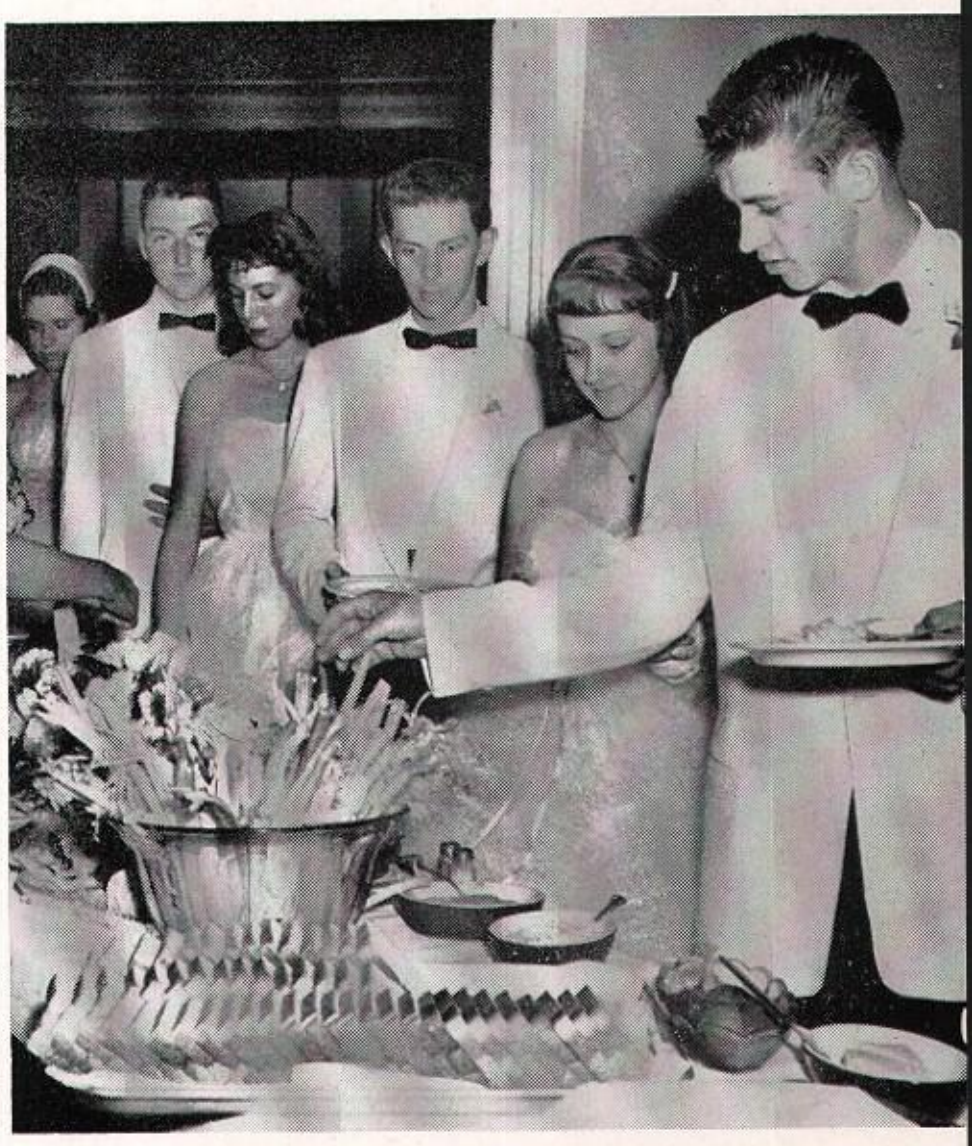






PROM





Of all the events we look forward to through the years, our Senior Prom is the one about which we dream and scheme the most. Our Prom, "Enchanted," was everything any of us could have hoped for.

To the Class of 1959:

Congratulations to the class of 1959. You have completed your High School education at Northeastern High. Your diploma simply means that you have completed a prescribed program of studies. Your education is far from complete. Education is a life-long process. We trust that you will take with you the habits of study and learning which we have tried to teach you and that you have been prepared to carry on your studies for yourself.

One of the purposes of study is to get us into the habit of thinking. Once we get into this habit, we can better direct our own lives. The men and women who succeed in life are those who make the effort to think. As a man thinks—he acts, as a man acts—he will be remembered.

As a guide to your thinking, I refer you to Philippians 4:8—

Whatsoever things are true,
Whatsoever things are honest,
Whatsoever things are just,
Whatsoever things are pure,
Whatsoever things are lovely,
Whatsoever things are of good report;
If there be any virtue, and if there be any praise,
think on these things.

Sincerely yours,

Clarence R. Orendorf

To the Class of 1959:

Many people, at this time, will be saying to you "Congratulations on your graduation." No one could be more sincere than I as I extend to you my congratulations. The class of 1959 has been especially close to me. I watched with great interest your progress through Junior High. When you arrived in Senior High I expected that this would be an outstanding class. I was not disappointed. Your scholarship, your attitude, and your interest in the total program of the school have been exceptional. Surely one other factor draws me into a closer relationship with this class. You are the last group with which I have had the pleasure of working in this school district.

Now that you are graduating you will certainly ask yourself, "Where do I go from here"? For some there will be more formal education. For others there will be jobs and for still others there will be military service. No matter where you go one fact will soon be clear to you—you don't know all the answers. Education is a continuing process. We have tried here at Northeastern to properly prepare you for what lies ahead. We feel work habits and attitudes are just as important as factual knowledge. Our success as a school, can best be measured by the success or failure of our graduates. I am confident that your record in the coming years will prove to be an outstanding one.

Many of the things I would like to say to you cannot find expression on this printed page. I can only hope that as you and I go our separate ways, our paths will cross frequently, and that our bonds of friendship and mutual respect will be strengthened in the years ahead.

Sincerely yours,

Carl W. Nelson
